Market Shows Strength and Net Gains at Close
Are Result—Coffee, Grain, and Cotton Reports Good.

New York, June 13.—The usual Tuesday selling of stocks put in an appearance this morning at the very opening of the security market, being assisted to some extent by moderate liquidation for the account of London, where an increase of speculative interest in American securities has lately been shown.

But the declining movement, if it could be called such, was plainly or more more trading origin, and stopped at the end of the first half hour of business. The history of the day's market thereafter was only a repetition of that of many other occasions in the past month, or since the decidedly firmer undertone of the market began to be visibly in evidence. On the decline, offerings of stocks diminished, and finally ceased altogether. There followed a period of dullness, then early sellers for the fall began to recover their stocks, and found that they could no longer do so at the low prices. Buying gradually became more animated and gathered in the day's business, and went on, and at the close nearly all the standard shares exhibited net gains.

Copper to-day sold at 12 1/2 cents a pound, the highest price in many months, and increasing reluctance was visible on the part of mining companies to make large sales even at this advance.

Not the least important announcement of the day was the government report

FINANCE AND REALTY

The Washington Stock Exchange list of sales more nearly approached its usual length yesterday, although the volume of business was not large. Preference was shown for bank stocks and bonds. Good prices prevailed.

Bond Market.
Norfolk and Washington Steamboat was easily the leading feature of the day, and the price ranged from 104 1/2 to 104 3/4. There has been strong evidence for several days of the growing popularity of this security, and yesterday served to confirm that opinion.

Potomac Consolidated has crept up a fraction in price yesterday, selling throughout the day at 112 1/2 point above par.

Capital Trusts—sold at 112 1/2.

Bank Stocks.
Securities of four banking institutions figured in the day. District National sold at 104 1/2. Second National at 104 1/2. United States at 104 1/2. The first two, as compared with 103 1/2, 103 1/2, and 103 1/2, respectively, were the corresponding week in 1910.

There were no wide fluctuations to-day in either the grain or cotton markets. Cotton held firmly, being one of the commodities that is now most affected by the hot and dry weather in the Southwest. At the same time, speculation in the grain market was showing some symptoms of nervousness, over the attempt to sustain prices at their present extremely elevated range.

More cheerful statements as to general business conditions continue to be heard every day, and this afternoon these were accompanied by more positive reports than have yet appeared as to the improvement in the iron and steel industry.

Typewriter Stock.
Two sales of ten shares each of Mergerizer were made at the uniform price of 24.

Georgetown Realty Sales.
Daniel Johnson bought a lot on Wisconsin avenue, near Water street, Georgetown, fronting 27 feet on Wisconsin avenue, with a depth of 121 feet, for \$1,100. The property is improved by a frame dwelling.

Mary P. Myhrle bought a lot of 62 feet in Thirty-first street and Second alley, Georgetown, improved by a double frame dwelling, for \$800.

J. Eakin Gadsby bought a lot 64 feet front at the intersection of Water street and Wisconsin avenue, improved by a brick dwelling, for \$1,025.

H. Gadsby bought a lot in the same locality, improved by a frame dwelling, for \$800.

Two other lots offered in the same group were withdrawn. All the above were conducted by Thomas J. Owen & Son.

Sale of Model Laundry.
At the receiver's sale of the Model Laundry yesterday, the equipment and unexpired lease of premises were sold to George Hurlings, who will organize the New Model Laundry Company and continue the business at 1710 to 1718 E street northwest. The price paid was \$2,830.
